

Interbay Zoning Study

Community Meeting

The City of Seattle Department of Planning and Development is currently studying zoning options for the Interbay neighborhood. The Interbay neighborhood is bounded by the BN Railroad tracks, the Emerson Street overpass, 15th Avenue West, and the Interbay playfields and golf course. Among considerations for changes in this area are:

- Encouraging mixed use projects combining retail and new residential densities.
- Increased building heights.
- Improving the transportation system.

You are invited...

...to a public meeting to discuss planning options for the Interbay area. For more information, visit www.seattle.gov/dpd/planning/interbay/

Questions? Contact Jim Holmes, DPD Senior Urban Planner, at (206) 684-8372 or jim.holmes@seattle.gov.
